

FCC Public Comment Regarding 106.7FM KLove Local NC Station:

1. KLove's Service to Me as Resident of the Local Community: Not only does KLove provide my family with a great source of musical entertainment, it provides us with a constant source of support and encouragement. KLove is the only local radio station that offers "Positive and Encouraging" radio that can be utilized by my entire family – young and old. As stated on the broadcast – there is "No Seven Second Delay Needed" – which means that I don't have to worry about what is being said on air and what is being heard by my children.

2. Effect if KLove Were Replaced by Other Programming: Simply put, heartfelt sadness by all current listeners; as would be with any loyal radio station listener if their radio station were replaced. However, our listeners are a bit different than most loyal radio station listeners. We love this radio station and its ministry so much that we are willing to financially support it out of our own pockets. Not only would our local community's current listeners be devastated by the loss of KLove (106.7), future listeners will also be, and they don't even realize it yet!!! This radio station not only affects the current listeners, it affects others that will have their lives changed by this ministry in the future.

3. Why the Service Provided by KLove is in Public Interest: KLove's service of "positive and encouraging music" is in the public interest because it gives foundation of Godly moral support and teachings of Christian love and ethics to the community - that many other radio stations not only "do not offer", but outright destroy.
